ESSEX LNRS | LOCAL NATURE RECOVERY STRATEGY

Take action for nature recovery – today, together

The Essex Local Nature Recovery Strategy is live – a county-wide plan to restore and protect the natural spaces of Essex and enable everyone to play a part.

From the smallest action in your garden to being part of Essex-wide nature positive projects, every action makes a difference and the LNRS helps deliver collaboration and co-ordination for even greater impact.

Explore opportunities near you:

- Access ideas for simple actions at home and in your community
- Find opportunities for habitat creation in your area
- Join local events, volunteer projects and partnerships

We can all benefit from a bigger, better and more connected approach to nature recovery.
